Guarantee

All "Norwood" Quality Products are sold with the understanding that they must be equal to the description in these pages and we stand ready to replace any of our products not found as represented.

H. L. Brown Fence & Mfg. Co.

FOREWORD

IN PRESENTING this catalogue it is our aim to place before the trade in a concise and comprehensive manner the high quality products manufactured by us.

Our products are sold absolutely on merit.

Compare the weights of our products with those of other makes. The heavier copper bearing wire offers greater stability and longer service.

Only the best materials enter into the construction of "Norwood" Quality Products. Skilled workmen and rigid inspection combine to maintain our high standard.

*If you want to handle a high-grade product you
can select no better than the "NORWOOD"*

SERVICE

FABRIC, STYLE NUMBER 100 AND 300

A pleasing design that combines service and economy.

General Appearance.

DESCRIPTION OF FABRIC

This style of fabric is made of heavily galvanized wire. The crimped uprights or pickets are 9 gauge wire. In the No. 100 fabric these are spaced 3 inches apart, and in the No. 300 fabric these are spaced 1½ inches apart.

The curved top of each picket is securely interlocked with the adjoining picket forming the "Double Top."

Twisted cable line wires are No. 12 gauge, spaced 6 inches apart, except the top two cables which are 2½ inches apart.

BLUE RIBBON LINE

SERVICE

FABRIC, STYLE NUMBER 600, DOUBLE BOW

Very Substantial and Ornamental.

Without doubt the most universally popular LAWN FENCE made.

General Appearance.

DESCRIPTION OF FABRIC

This fabric is made of heavily galvanized wire. The crimped uprights, or pickets, are No. 9 wire, spaced 3 inches in upper section of the fence and $1\frac{1}{2}$ inches in lower section. The curved top of each picket is tightly interwoven with adjoining pickets, forming our strong "Double Top." In the lower section, the full-length pickets are interwoven with an additional

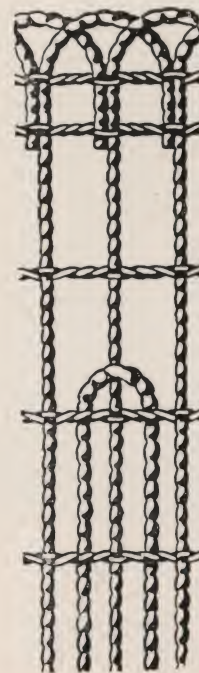

No. 9 crimped picket, starting at the bottom of the fence, and extending upward as shown, forming a bow at the fourth cable, thus making the spacing between the pickets $1\frac{1}{2}$ inches in the lower section. The double horizontal twisted wires, or cables, are 12-gauge, spaced 6 inches apart except the top two cables which are spaced $2\frac{1}{2}$ inches apart.

The extra pickets at bottom of fabric engage the lower cables as follows: 24 and 30 inch, three lower cables; 36 and 42 inch, four cables; 48 and 54 inch, five cables; 60 and 66 inch, six cables; 72 and 78 inch, seven cables; 84 inch, eight cables.

Detail of Construction.

All "NORWOOD" PRODUCTS are made of COPPER BEARING RUST-RESISTING STEEL

CHAIN LINK FABRIC

Illustrates barbed top and knuckled bottom.

Made of high grade copper bearing steel wire. Fabric is hot dipped galvanized after weaving. Stay wires are spiral and run continuous from top to bottom, making a very strong fabric. Top and bottom edges are barbed and knuckled, as wanted.

Used for residences, factories, schools, public buildings, parks, tennis courts, window guards, tool rooms, game enclosures or any place requiring substantial non-climbable protection which will endure.

QUALITY

SERVICE

NUMBER 704 FACTORY FENCE

This Special Fabric is made of heavily galvanized wire. The uprights, or pickets, are No. 9 crimped wire spaced $1\frac{3}{4}$ inches. The double horizontal twisted wires, or cables, are of 12-gauge wire, spaced $5\frac{1}{2}$ inches to $6\frac{1}{2}$ inches according to height of fence, except the top two

cables, which are uniformly spaced $2\frac{1}{4}$ inches. The two rows of barbed wire and posts are not a part of the fabric and are not included in the price. This fabric is put up in stock rolls 165, 250 or 330 feet. Special length rolls to order.

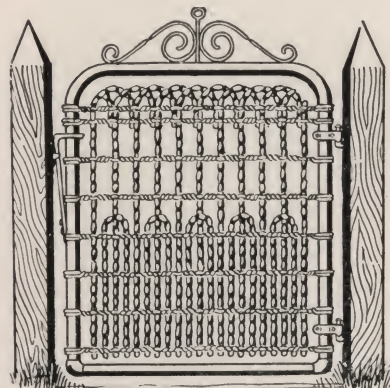

LIST PRICES OF FABRIC PER LINEAL FOOT

Height of fabric in inches	48	54	60	66	72	78	84
Number of cables	9	10	11	12	13	14	15
List, per lineal foot	32c	37c	40c	44c	48c	52c	57c

A stout non-climbable fence designed for enclosing grounds of factories, schools, parks, play grounds, orchards or wherever protection is necessary and where limited cost is an item. Gates can be furnished with this web or fabric to match this fence. Can be used for window guards and tree guards.

"NORWOOD" ORNAMENTAL WALK GATES

Substantial and Serviceable.

(Cut is No. 600 Filler)

These Gates can be furnished with any style filler—Style No. 600, No. 100 or No. 704; with Chain Link Filler quoted on request.

The fabric is all made to fit the gate frame and will exactly match the fence fabric described in this catalogue under the same number. There are no sharp ends of wire projecting, and each web is a complete piece of fabric in itself, specially woven to size.

Frames are made of best grade standard pipe $1\frac{1}{8}$ inch outside diameter. All Ornamental Gates are equipped with scroll top and spring latch.

The design is pleasing and dignified and is truly worthy of the name Ornamental.

All special sizes of Lawn Gates are charged at the list price of our next larger regular size gate plus 50c net.

All "NORWOOD" PRODUCTS are made of COPPER BEARING RUST-RESISTING STEEL

"NORWOOD" FLOWER BED GUARD, STYLE No. 150

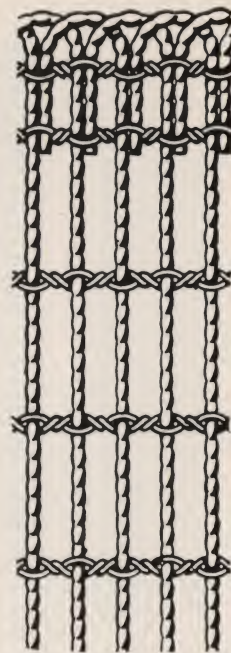

Our Flower Guard makes a handsome and protective addition to the flower bed. No posts nor braces are needed. The pickets project $4\frac{1}{2}$ inches below the bottom cable. When these pickets are inserted in the ground, and the ends of the fabric connected, the miniature fence stands firmly erect. The fabric is of special heavily galvanized wire. The crimped uprights or pickets, are No. 9 wire spaced 3 inches apart strongly woven with No. 12 twisted galvanized cable wires.

LIST PRICES Per Lineal Foot

16 inch	11c

Put up in 165, 250 and 330 foot rolls.	

This FLOWER GUARD will be found particularly effective in confining the winter mulch for beds of perennials as well as protecting young plant beds from damage. Easily conforms to any shape flower bed and can be installed and taken up with very little effort. Also can be used for protection along cement walks, etc.

All "NORWOOD" PRODUCTS are made of COPPER BEARING RUST-RESISTING STEEL

This shows in detail the construction of the fabric of our Heavy Duty Flower Bed Guard.

"NORWOOD" RUBBISH CONSUMERS

"NORWOOD" Consumers are made of No. 9 heavily galvanized crimped upright wires, spaced $1\frac{1}{2}$ inches apart and interwoven with No. 12 $\frac{1}{2}$ heavily galvanized twisted cable wires spaced

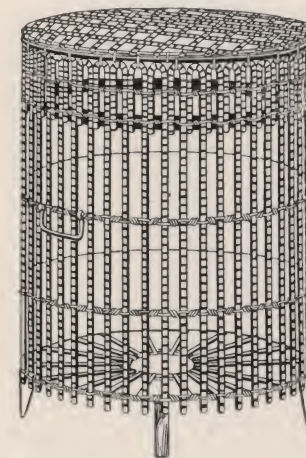

6 inches apart—except the top two cable wires, which are $2\frac{1}{2}$ inches apart, to give additional strength at the top. Consumers nest each size in next larger size for convenience in shipping and storing.

DIMENSIONS AND LIST PRICES

Number	1	2	3	4
Diameter	12 in.	15 in.	18 in.	21 in.
Height	18 in.	22 in.	26 in.	31 in.
Per Dozen	\$24.00	\$27.00	\$30.00	\$40.00

Note—NORWOOD CONSUMERS are re-enforced at top with steel band to give additional strength.

"NORWOOD" CONSUMERS enable the home-owner to safely dispose of the daily accumulation of paper and other rubbish. The style of the fabric and woven wire top prevent scattering of burning embers.

NOTE—When Purchasing Consumers, we suggest ordering equal amounts of each different size so that they can be nested in shipping. This will affect a considerable savings in freight. If all of one size they can not be nested.

SUBJECT TO SAME DISCOUNTS APPLYING TO GATES.

WHEN ORDERING, USE BOTH NUMBER AND DESCRIPTION—See Page 22 for Additional Fittings.

GATE, POST AND RAIL FITTINGS

For convenience in ordering, we illustrate herewith the substantial fittings we furnish our trade.

WHEN ORDERING, USE BOTH NUMBER AND DESCRIPTION—See Pages 20 and 21 for Additional Fittings.

GATE, POST AND RAIL FITTINGS

All post dimensions given below are OUTSIDE diameters
For Identification, Refer to Illustrations on Opposite Page.

No.	DESCRIPTION	Black	Galv.	No.	DESCRIPTION	Black	Galv.
101SW	Inclined steel band walk gate fitting, 1 7/8" post	\$0.90	\$1.10	495	Two-way steel adjustable 1 3/8" top rail clamps, 2 3/8" post	.40	.50
101SD	Inclined steel band, drive gate fitting	.95	1.15	496	Two-way steel adjustable 1 5/8" top rail clamps, 1 7/8" post	.40	.50
102S	Steel (inclined) walk gate fittings, 2 3/8" iron post fitting	.85	1.05	497	Two-way steel adjustable 1 3/8" top rail clamps, 1 7/8" post	.40	.50
103S	Steel (inclined) drive gate fittings, 2 3/8" iron post fitting	.95	1.10	499	Malleable two-way adjustable 1 3/8" top rail clamps, 2 3/8" post	.50	.60
104S	Steel (inclined) walk gate fittings, 2 7/8" iron post fitting	.95	1.10	500	Malleable two-way adjustable 1 3/8" top rail clamps, 1 7/8" post	.40	.50
105S	Steel (inclined) drive gate fittings, 2 7/8" iron post fitting	1.05	1.20	501	One-way steel clamp, 1 3/8" top rail, 1 7/8" post	.40	.50
106S	Inclined malleable walk gate hinge clamp	.35	.40	502	One-way steel clamp, 1 5/8" top rail, 1 7/8" post	.50	.60
107S	Inclined malleable drive gate hinge	.40	.50	503	One-way steel clamp, 1 3/8" top rail, 2 3/8" post	.40	.50
153S	Malleable elephant ear for wood post, new patented	1.00	1.00	504	One-way steel clamp, 1 5/8" top rail, 2 3/8" post	.50	.60
156S	Malleable walk gate hinge lug incline	.30	.35	505	One-way steel clamp, 1 5/8" top rail, 2 7/8" post	.50	.60
157S	Malleable drive gate hinge lug incline	.40	.45	520	Two-way cable stretcher (Pat. applied for), 1 7/8" post	.50	.60
158S	Malleable walk gate lag screw, 4 1/2" long, inclined	.30	.40	521	One-way cable stretcher (Pat. applied for), 1 7/8" post	.50	.60
159S	Malleable drive gate lag screw 6" in- cline	.40	.45	530	Ball top to fit 1 7/8" post	.50	.60
250S	Double drive bottom lugs, 1 1/8" frame	.30	.35	535	Ring ball tops, 1 5/8" rail, 1 7/8" post	.60	.75
251S	Malleable D. D. bottom lugs, 1 3/8" frame	.40	.45	536	Ring ball tops, 1 3/8" rail, 1 5/8" post	.50	.60
255	Double drive rod guide, 1 1/8" frame	.25	.30	537	Ring ball tops, 1 3/8" rail, 1 7/8" post	.60	.70
256	Double drive rod guide, 1 3/8" frame	.30	.35	540	Ring ball tops, 1 3/8" rail, U post	.50	.60
492	Two-way steel not adjustable 1 5/8" top rail clamps, 2 3/8" post	.50	.60	543	Small flower guard for chain U post	.25	.30
493	Two-way steel adjustable 1 5/8" top rail clamps, 2 7/8" post	.40	.50	550	Walk gate scroll, 23" to 37"	1.00	1.10
494	Two-way steel adjustable 1 5/8" top rail clamps, 2 3/8" post	.40	.50	551	Single drive gate scroll, 43"	1.25	1.40
				552	Double drive scrolls, 23" to 37", per pair	2.00	2.20

SUBJECT TO SAME DISCOUNTS APPLYING TO GATES.

WHEN ORDERING, USE BOTH NUMBER AND DESCRIPTION—See Pages 20 and 21 for Additional Fittings.

IMPORTANT

To avoid errors, please give the following information when ordering gates.

First—STYLE of gate and FILLER wanted.

Second—Height in INCHES.

Third—Width of opening in FEET.

Fourth—Whether for WOOD or IRON posts.

Fifth—Whether frame is wanted GREEN or BLACK ENAMELED, or GALVANIZED.

EXAMPLE—1 ornamental No. 600 walk gate, 42 inches high by 3½ feet wide, wood posts, galvanized.
